

Instructions and application for purchasing Chapter 71 military service

INSTRUCTIONS

If you actively served in the United States military, you may be eligible to purchase credit for up to four years of your service. Please **read** these instructions carefully before completing the application.

Step 1: Determine your eligibility

- 1) **Are you a veteran, as defined in Massachusetts General Laws, Ch. 32 §1 and Ch. 4, §7, cl. 43?** (see below for definition.) ☐ Yes ☐ No
If "yes," please go to Question 2.
If "no," your service is not eligible for purchase
- 2) **At the time of your application to purchase service, will you be a "member in service" of the MTRS?** ☐ Yes ☐ No
In general, a "member in service" is someone who is: actively teaching; receiving Workers' Compensation for total incapacity; on a sick leave; on a paid leave; or, on an authorized unpaid leave of less than one year.
If you have any questions about whether you are a "member in service," please contact us.
- 3) **Have you received retirement credit for this service in any other Massachusetts contributory retirement system?** ☐ Yes ☐ No
If "no," you may be eligible to purchase credit for your military service.
If "yes," your service is not eligible for purchase. If you have already received credit for your Service, that credit will be transferred to the MTRS along with any other creditable service that you have accrued in any other Massachusetts contributory retirement system. You cannot receive credit twice for the same period of military service.

RETIREMENT SYSTEM

Step 2: Review these Q&A to understand the restrictions and application process

What requirements or restrictions should I know about?

Depending on the type of your military service, you may purchase up to a maximum of four years of service credit based on any combination of the following:

- **Active military service in the armed forces of the United States (at some point during your life; pursuant to Chapter 71):** You may purchase one year of credit for each year of active military service, up to a maximum of four years.
- **Service in the Massachusetts National Guard or the Active Reserves (at some point during your life; pursuant to Chapter 71):** You may purchase one year of credit for every five years of service in the Guard or Reserves, up to a maximum of four years.

You will receive credit for all of your eligible service, up to a maximum of four years. For example, if you served two years and three months in active duty in the armed forces, you may purchase 2.25 years of military service. Likewise, your cost to purchase this time will be prorated.

Note: If your teaching career was interrupted by military service (in other words, you left teaching to enter the military service and then returned to teaching), please contact the MTRS about receiving credit for this service according to a different statutory provision within the retirement law.

How can I determine if it makes financial sense for me to purchase all—or just a portion—of my military service?

Depending on how much creditable service you will have at the time of retirement, purchasing your military service credit may or may not make financial sense for you. Please be aware that a retirement allowance can be no higher than 80 percent of your allowable final salary average, and a service purchase, once made, cannot be refunded. So, before you decide to purchase this service, or decide how much to purchase, please consider whether you expect to be at or near the 80 percent maximum at the time of your retirement *without* this purchase.

To compare your retirement benefits both *with* and *without* this service purchase, visit our website at mass.gov/mtrs and use our online estimator..

Step 3: Apply to purchase this service

If you have read and understand the Q&A in Step 2, and believe that you are eligible to apply to purchase credit for your military service, please:

- 1) **Complete** Sections 1-3 of the application.
- 2) **Obtain** a copy of your *Military Discharge Form* (also known as a "DD214") and, if you are applying to purchase service with the Massachusetts National Guard or Active Reserves of the Armed Forces, a copy of your records setting forth your dates of active reserve service or National Guard duties. Be sure to submit a DD214 that covers **all** of your military service history claimed.

A special note to members who have already submitted a copy of their DD214: We appreciate that you have already sent us a copy of your form, however, we respectfully request that you please attach another copy to your application. This will greatly facilitate our processing of your form.

If you need to obtain documentation of your military service, submit a written request as follows:

For your military discharge form DD214:

National Personnel Records Center
Military Personnel Records
9700 Page Boulevard
St. Louis, MO 63132-5100

For proof of your Massachusetts National Guard service:

Military Records Branch
Joint Force Headquarters, Massachusetts National Guard
Milford, MA 01757
Phone: 508-233-7780

- 3) **Contact** the payroll or business office of the agency or government unit for which you worked when you most recently became a member of a Massachusetts contributory retirement system. Explain that, for purposes of potentially purchasing your Chapter 71 military service credit, you need

confirmation of your starting date and salary, and that you would like to have the payroll or business officer complete Section 4 of your application. Ask this person to complete Section 4 and then return the form to you.

- 4) **Make** a copy of your completed application and attachment(s) for your records.
- 5) **Submit** your completed application and attachment(s) to either our main or Springfield office (addresses on form).

How is the cost of my service purchase calculated?

The cost to purchase each year of service is equal to the number of years of service you wish to buy, times 10 percent of the salary rate in effect at the earliest time that you became a member of a Massachusetts contributory retirement system.

Example A: Continuous membership in a Massachusetts contributory retirement system even though a break in teaching service

Joe Teacher served in the Persian Gulf from January 1, 1991 to March 31, 1993. When Joe started teaching in the Cambridge public schools on September 1, 1994—and became a member of a Massachusetts contributory retirement system—his annual salary was \$35,000. The cost for Joe to purchase his military service is based on his salary for his earliest established creditable service with a Massachusetts contributory retirement system—his starting salary in Cambridge in 1994—and he needs to contact the payroll officer in Cambridge to have that person complete Section 4 of his application. Joe's cost will then be calculated as follows:

■ Amount of military service Joe is eligible to purchase	2.25 years
1/1/1991 – 3/31/1993 = 2 years and three months =	2.25 years
■ Cost per year of military service	\$3,500.00/year
10%	10%
x Annual salary as of earliest established creditable service with a MA contributory retirement system	x \$35,000.00
Cost per year	\$3,500.00
x Number of years to purchase	2.25 years
Cost for Joe Teacher to purchase 2.25 years	\$7,875.00

Example B: Break in membership in a Massachusetts contributory retirement system

Like her friend Joe Teacher, Mary Educator also served in the Persian Gulf from January 1, 1991 to March 31, 1993. When Mary started teaching in the Cambridge public schools on September 1, 1994—and became a member of a Massachusetts contributory retirement system—her annual salary was \$35,000. Mary left teaching in 1999 to pursue another career, and took a refund of her funds on account with the MTRS when she left. Mary then returned to teaching, joining the Brookline public schools in 2004 at a salary of \$45,000. Because she had withdrawn her previous contributions, Mary had to "become a member" of the MTRS all over again. The cost for Mary to purchase her military service is based on her salary for her most recent established creditable service with a Massachusetts contributory retirement system—her starting salary in Brookline in 2004—and she needs to contact the payroll officer in Brookline to have that person complete Section 4 of her application. Mary's cost will then be calculated as follows:

■ Amount of military service Mary is eligible to purchase.	2.25 years
1/1/1991 – 3/31/1993 = 2 years and three months =	2.25 years
■ Cost per year of military service	\$4,500.00/year
10%	10%
x Annual salary as of most recent established creditable service with a MA contributory retirement system	x \$45,000.00
Cost per year	\$4,500.00
x Number of years to purchase	2.25 years
Cost for Mary Educator to purchase 2.25 years	\$10,125.00
